GMP Audit Program for Dietary Supplement and Ingredient Manufacturers

Differentiate With USP Services That Offer Risk Management and Provide Value.

- ▶ USP standards are recognized in over 140 countries.
- ▶ Highly characterized Reference Standards qualified through collaborative testing
- ▶ Ingredient verification program verifies plans are in place to reflect new requirements under the FDA Food Safety Modernization Act
- ▶ Good Manufacturing Practices (GMP) audit program helps complement FDA requirements
- ▶ USP-verified supplements are recommended by healthcare professionals.
- ▶ Over 50 percent of consumers look for an independent quality seal or mark.
- ▶ Consumer awareness of USP Verification is the highest amongst all third-party, independent supplement verification programs.
