The 2015 USP Dietary Supplements Compendium (DSC) combines dietary supplement standards from the *United States Pharmacopeia* and the *National Formulary (USP–NF)* with *Food Chemicals Codex (FCC)* specifications including analytical procedures and acceptance criteria, plus regulatory guidance, Admission Evaluations, color plates and illustrations, and other valuable information. The DSC offers the international dietary supplement community a comprehensive resource for finding suitable, unbiased and scientifically sound specifications for finished products, dietary ingredients and other components common to dietary supplement manufacturing.

- ▶ **Expanded!** The DSC is a two-volume set. All monographs are in a streamlined format that is easy to read and follow.
- ▶ **Nearly 900 monographs** with established specifications of identity, strength, quality, purity, packaging and labeling for raw materials and finished dietary supplement products
- ▶ **Step-by-step tests and assays** from the USP–NF and the FCC
- ▶ **More than 40 additional and revised Admission Evaluations** conducted by USP Expert Committees
- ▶ **Important industry information**—regulatory framework, industry guidance documents, USP Verification Programs and more
- ▶ **More than 150 pages of color plates and illustrations added**—macroscopic and microscopic photographs, diagrams, chemical structures and TLC/HPTLC/HPLC pictures
